

DELUXE PRESENTATION MATTE PAPER

Acid Free • Alpha Cellulous • Highest D-Max • Bright White

PremierArt™ Deluxe Presentation Matte Paper is a Bright White (BW) paper with a smooth hot press surface. This alpha cellulous paper is acid and lignin free, resulting in a lower cost alternative to cotton papers. The base is alkaline buffered to ensure longevity. This acid free coating yields the highest D-Max and color gamut from any presentation matte paper on the market today.

UNIVERSAL COMPATIBILITY!

Compatible with both dye and pigment printers, this economical instant dry paper offers excellent water resistance. The new Deluxe Presentation Matte Paper currently comes on an 180g base, suitable for both rolls and cut sheets. This paper is also great for signage applications.

When used with the popular long life pigmented ink sets on the market today, this paper will last for many generations under proper display conditions.

FEATURES

Alpha Cellulous Base

Acid & Lignin free

Alkaline Buffered
