# The Lawson Floor Stand Epson® SureColor® F2100

**EPSON**  
EXCEED YOUR VISION

EPSON F2100  
w/ Lawson Floor Stand

## Support from the Ground Up

Lawson offers the premier floor stand for your Epson DTG printer. Engineered to Epson's precise standards and dimensions, Lawson's heavy duty rolling floor stand eliminates any movement or shaking during DTG printing.

This floor stand comes with premium locking casters that make it easy to move your Epson DTG printer from location to location, across parking lots and into/out of trailers. This is especially helpful for on-site printing at live events or for moving the printer out of the way when not in use.

This superior Epson floor stand includes a hinged door storage area to keep your items safe and organized. The waste ink tube and bottle is secured inside the cabinet with a custom anti-tip device to prevent spills. The storage area is also a great place to keep extra DTG Epson ink, supplies or other accessories.
