Flexi MUTCD

Grow your business providing road signs for the American public and commercial markets. It's easy with the SAi Flexi MUTCD digital collection.

This complete transportation sign design and reference software incorporates the entire MUTCD sign and symbol library, providing all the tools necessary to customize your own transportation signs or modify existing ones while conforming to the Federally mandated MUTCD specifications.

All signs are designed using the guidelines set forth in the MUTCD Standard Highway Sign (SHS) manual. *

Signs in the collection have the correct typefacest and inter-character spacing and letter height. Colors have been pre-set to MUTCD SHS specifications.

All signs use separate layers for the major sign components so you have complete control over editing and ordering of sign elements.

* It is the responsibility of the end-user to ensure signs meet all state and local ordinances
